

I would like to voice my opinion on a radio station, K-Love. K-love serves me as a residence in my community by providing a great contemporary Christian music line up. Their news updates and public announcements also help me stay aware of national and local events. If K-love were to be bumped from the airways I know there would be a negative affect. K-love not only plays great music, keeps people aware of events but, also helps people who may be depressed or in need of help. You see, K-love plays positive encouraging music and also provides a prayer service for those who need help. I think that many poeple would no longer be able to tune into K-love and receive the lift up if it were removed from FM. Many people would not be able to have an allternative to main stream music and news. Many people who are lost without salvation would not have K-love to help show the way. PLEASE DONT TAKE K-LOVE off the air. It would trully be a cruel act in my opinon.
